Profile

Leveraging my background in information science as a librarian, I am currently pursuing education as a Full-Stack Developer with UCLA Extension with a completion date in March 2020. I love opportunities to learn and problem solve, collaborating with a team, and applying UX and design thinking principles to development.

Work History

Librarian, City of Santa Monica; Santa Monica, CA – Nov 2018 - Aug 2019
Branch librarian responsible for planning, marketing, and presenting library programming for diverse community. Provided services to library users at the reference desk utilizing integrated library systems for circulation, records management, and collection management.

Librarian, City of Monrovia; Monrovia, CA – Sep 2017 - Oct 2018
City librarian charged with collection development, cataloging, and weeding. Utilized OCLC system for copy cataloging and cataloged Spanish language materials. Provided reference services, outreach to the community, and designed library marketing and social media.

Librarian, Sacramento Public Library; Sacramento, CA – May 2015 - July 2017
Branch librarian at a heavily utilized city branch. Responsible for supervising volunteers and library assistants, maintaining branch collection, presenting programs, and developing partnerships with community organizations.

Membership Assistant, Crocker Art Museum; Sacramento, CA – Nov 2013 - Jan 2015
Database management (Raiser's Edge) including processing memberships, adding, editing, and merging member records, running reports, and developing database best practices.

Education

UCLA Extension; Los Angeles, CA
